

Java 8 Features:

Project Structure:

Codes & Their Outputs:

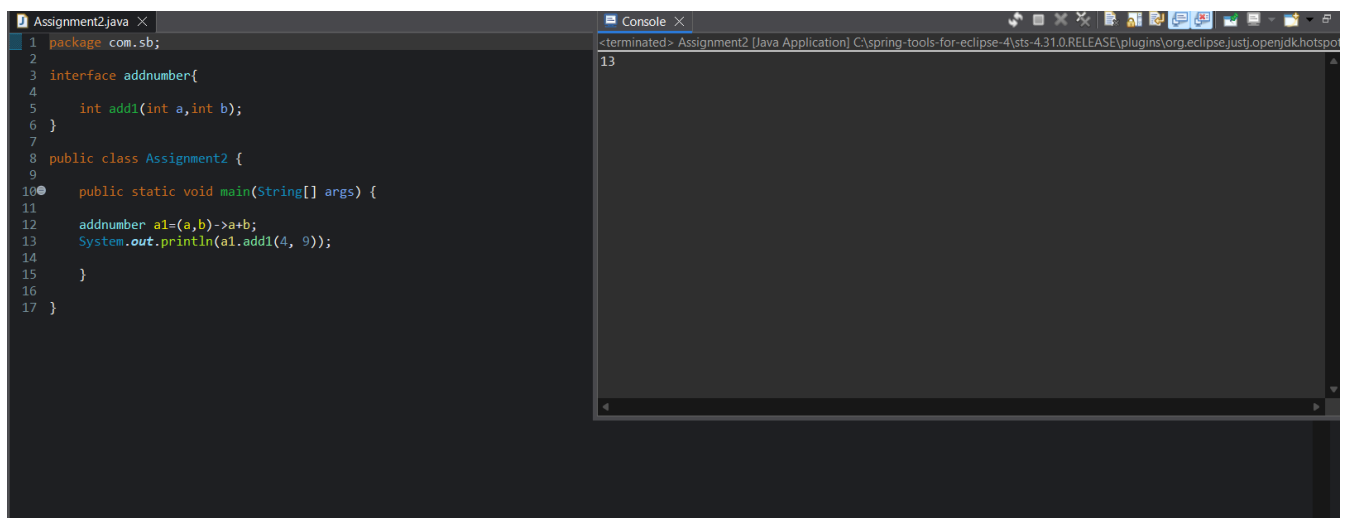

The screenshot shows the Eclipse IDE with two panes. The left pane displays the code for `Assignment1.java`, and the right pane shows the console output.

```
1 package com.sb;
2 import java.util.*;
3
4 public class Assignment1 {
5
6     public static void main(String[] args) {
7         List<String> names = Arrays.asList("Virat", "ABD", "Smith", "
8         names.sort((a, b) -> a.compareTo(b));
9         System.out.println("Sorted Names: " + names);
10    }
11 }
12
```

The console output shows the result of the program execution:

```
<terminated> Assignment1 [Java Application] C:\spring-tools-for-eclipse-4\sts-4.31.0.RELEASE\plugins\org.eclipse.justi.openjdk.hotspot
Sorted Names: [ABD, Devid, KLRahul, Smith, Virat]
```

The screenshot shows the Eclipse IDE with two panes. The left pane displays the code for `Assignment2.java`, and the right pane shows the console output.

```
1 package com.sb;
2
3 interface addnumber{
4     int add1(int a,int b);
5 }
6
7 public class Assignment2 {
8
9     public static void main(String[] args) {
10
11         addnumber a1=(a,b)->a+b;
12         System.out.println(a1.add1(4, 9));
13     }
14 }
15
16
17 }
```

The console output shows the result of the program execution:

```
<terminated> Assignment2 [Java Application] C:\spring-tools-for-eclipse-4\sts-4.31.0.RELEASE\plugins\org.eclipse.justi.openjdk.hotspot
13
```

```
Assignment3.java ×
1 package com.sb;
2
